Some time afterward, while digging at the bottom of a well on the premises of one Armand, the well-digger heard Jethro Armond, a had of 18 years, coniess to his father that he had the money stolen by Eagle. The father told his son to keep this money. Armond has formerly carried the mail over the same route. THE SHEET MILLS.

PITTSBURGH, PA., Sept. 3.—The officials of the Amalgamated Association have re-ceived intelligence that the Neidering house stamping company, of St. Louis has signed the sheet mill scale. The Neidering house is one of the most exensive sheet mills in the West, and, being the first to sign the scale since the conference in this city, it is considered of

great importance inasmuch as it will doubtless have the effect of swinging the Western manufacturers into line.

If the men go out the convention of the miners association called for the 15th will not be held. Those who think they know the tiver miners pretty well, say that it is hardly probable that they will assume the responsibility of a strike at this time, as with divisions in their ranks, the prospects of success would be very small.
